

AR Management

Did you know?

The American Hospital Association estimates that in 2018, hospitals provided \$41.3 billion in uncompensated care, up from \$38.4 billion in 2017. ¹

GeBBS AR Solutions Help Improve Your Bottom-line

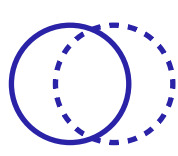

GeBBS' sophisticated and highly specialized AR workflow solutions are designed to ensure accurate account resolution and timely collection. Our AR dashboards can help you receive consolidated and customizable reports in real-time to accelerate cash collections, resolve inventory, and monitor liquidation/resolution ratios across facilities and payer groups.

Benefits of GeBBS AR Solutions

- ✓ Deployment of proprietary workflows for cash acceleration strategies
- ✓ Detailed dashboard with specific KPI metrics for CFOs, supervisors, and collectors
- ✓ Robust solutions for system wind-down and legacy AR
- ✓ Flexsource solution offering
- ✓ Flexible solutions that can host client software like Epic, Cerner, NextGen, GE and multiple input formats (Excel, CSV, PDF)
- ✓ Robust exception management tool
