

Resolve Credit Balance Issues With Intelligent Technology

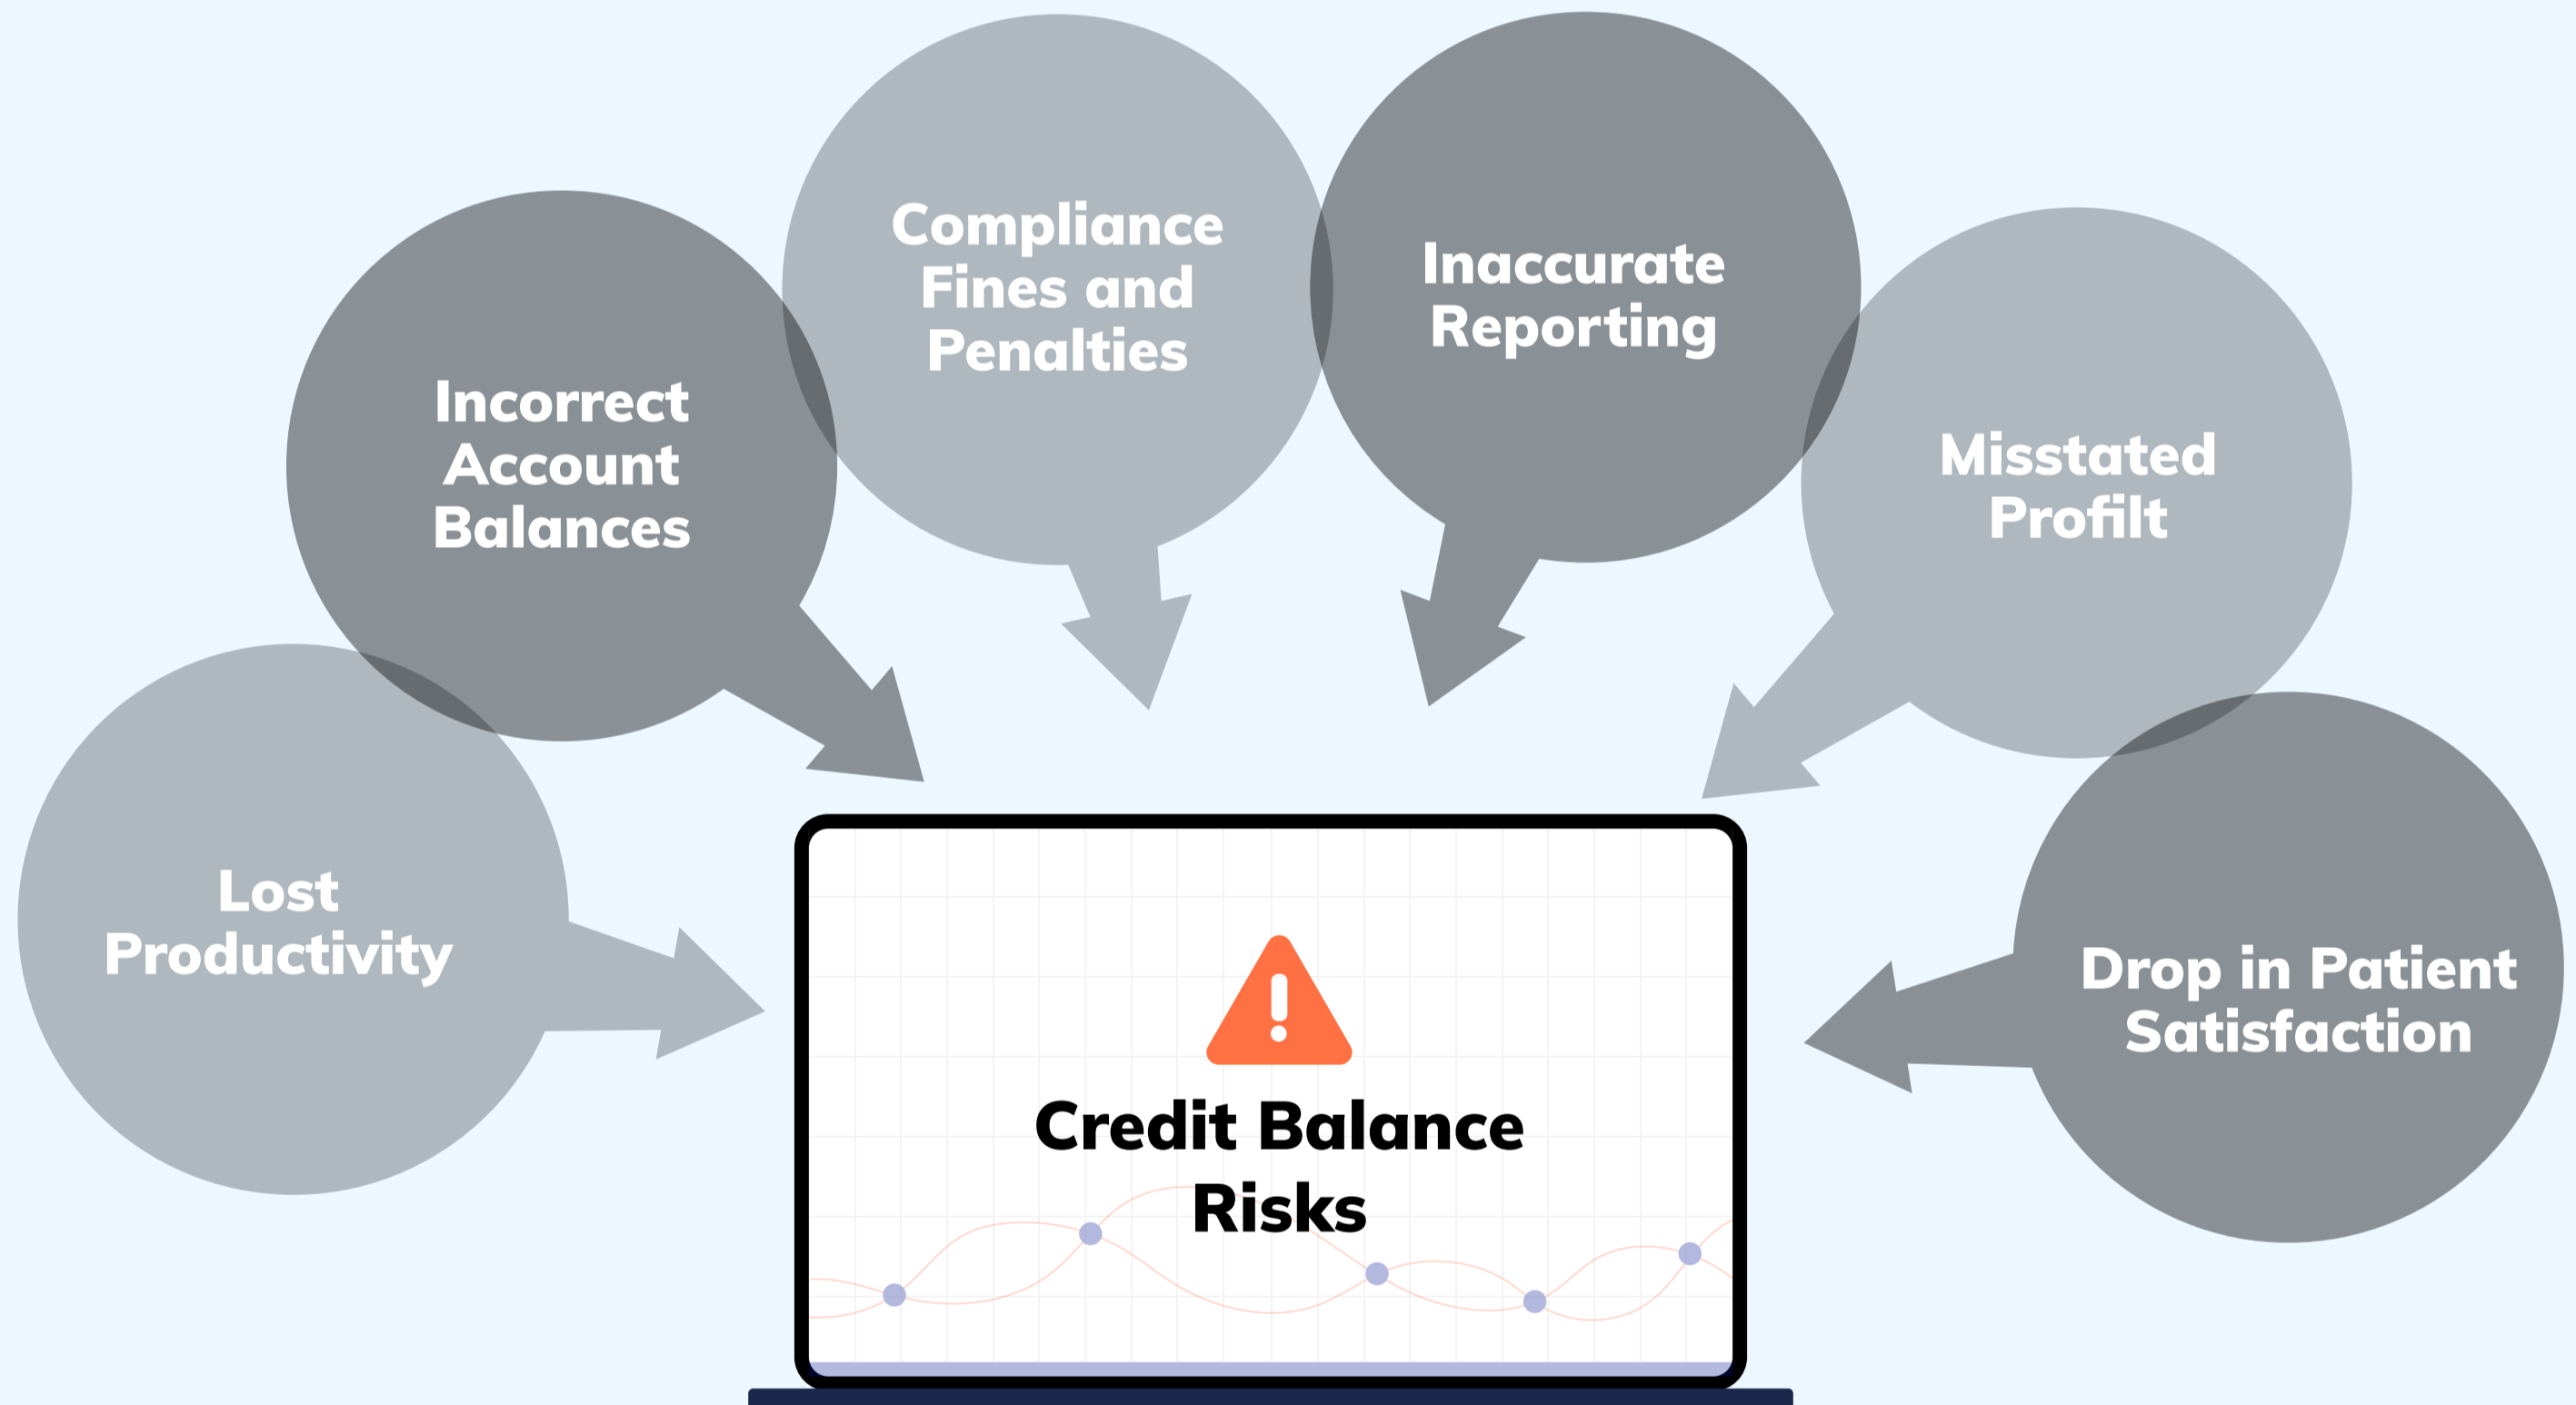

Did you know?

The Healthcare Financial Management Association (HFMA) says credit balances occur due to 3 major reasons:

- 55% incorrect posting of allowances
- 35% duplicate payments and overpayments by patients and payers
- 10% missed-postings¹

HFMA calls credit balances the
“Stealth Aircraft of Hospital Patient Accounting”

GeBBS' iCB™ Intelligent Credit Balance Technology Helps Resolve These Issues

The GeBBS iCB platform is an automated workflow tool that helps credit balance reconciliation by automating relevant functionalities.

- ✓ Tracking and Trending
- ✓ Root Cause Analysis
- ✓ Exception Management
- ✓ Streamlined Workflow
- ✓ Refund Packet Management
- ✓ Real-time Reporting
- ✓ Reconciliation and Resolution
- ✓ User Time Log

Benefits of GeBBS' iCB Technology

Automated Resolution

Up to 200% Productivity Increase

Up to 50% Cost Decrease

99% Accuracy

Improved Compliance
