

## iCode Assurance: Coding Audit Software

GeBBS' iCode Assurance analytics platform delivers risk assessments that identify codes and claims to provide our clients with real-time feedback on compliance and revenue impacted risk + financial opportunity. Our innovative workflow platform allows for immediate corrective action to remedy risk and delivers robust reporting metrics around results and education, that also validates a strong positive ROI impact.

iCode Assurance allows clients to use their team, GeBBS' team, or a combined team to utilize our robust workflow engine that reviews all encounters for potential risk.

### Benefits of iCode Assurance

- ✓ Decrease Labor Costs
- ✓ Reduce Compliance Risk
- ✓ Expand Capacity to Review Added Encounters
- ✓ Mitigate Denials
- ✓ Increase Revenue
- ✓ Improve Efficiencies

## Enhanced Features of iCode Assurance

- ✓ **One Platform for All Service Types and Workflows:**  
Streamline all concurrent and retrospective coding and auditing efforts into one tool. iCA covers coding for all points of care including inpatient, outpatient, professional, performance measures and HCC.
- ✓ **Customization:**  
iCA is configurable and can be customized to fit all workflow and reporting needs. GeBBS' team of 100+ dedicated software experts are readily available to quickly support customization and deliver a distinctive product that encompasses requested specifications.
- ✓ **Implementation Team:**  
Easy implementation and maximized outcomes; internal IT resources required are minimal. GeBBS provides dedicated support through a highly skilled and experienced team. Our team includes project managers, coding/auditing SMEs, and additional experts in EMRs and IT.
- ✓ **Optimize Compliance with Analytics:**  
Enhance or replace current coding and compliance workflows. iCA provides effective and automated tools to identify risk and immediately act upon opportunities.
- ✓ **Combine GeBBS Services with Internal Operations:**  
iCA enables both internal and external teams to work within one tool to provide information integrity, continuity, visibility, and allows for consolidated feedback that significantly enhances outcomes.
