

iAccounts Receivable®

Intelligent AR Automation Platform

Transforming Accounts Receivable for Better Financial Performance

iAccounts Receivable (iAR®) by GeBBS revolutionizes revenue cycle management by optimizing collections, automating workflows, and delivering actionable analytics. Seamlessly integrating with existing billing systems, iAR® provides scalable and efficient AR management tailored to the complex needs of modern healthcare organizations.

Key Features:

Real-Time Cash Flow Insights

Payer trends and DSO metrics to inform decisions.

Automated Collections Management

AI-driven workflows to accelerate claim resolution.

Advanced Denial Management

Targeted RCA and integrated denial-driven worklists.

Customizable Reporting Dashboards

Actionable insights on claims, collections, and AR aging.

Rapid Implementation

Easily integrates with your existing systems.

Benefits:

01 Recover Lost Revenue

- Speed up claim processing with AI-driven workflows.
- Implement proactive denial resolution to secure outstanding payments.
- Enhance claim accuracy to improve payer reimbursement rates.

02 Increase Productivity

- Reduce manual interventions with intelligent process automation.
- Streamline AR operations through integrated task management systems.
- Boost AR specialist productivity with optimized task management.

03 Reduce Operational Costs

- Decrease staffing costs by automating repetitive AR tasks.
- Utilize real-time validation tools to minimize billing errors and rework.
- Leverage data-driven insights to allocate resources efficiently and reduce overhead.

04 Improve Financial Performance

- Shorten collections cycles to accelerate revenue inflows.
- Achieve higher clean claim rates through precise billing and error reduction.
- Utilize advanced analytics for accurate revenue forecasting and financial planning.

Real Results:

20%+ Reduction in AR Days

98%+ Net Collections Ratio

Up to 90% Claims Resolved within 90 Days

Up to 30% Claims Auto-Identified for Underpayments

1.5X Increase in Collector Productivity

**Results may vary*

Let iAR® help your organization achieve superior AR performance.

Your trusted partner for providing secure and compliant revenue cycle management solutions
