

Enhancing Coder Performance and Coding Process

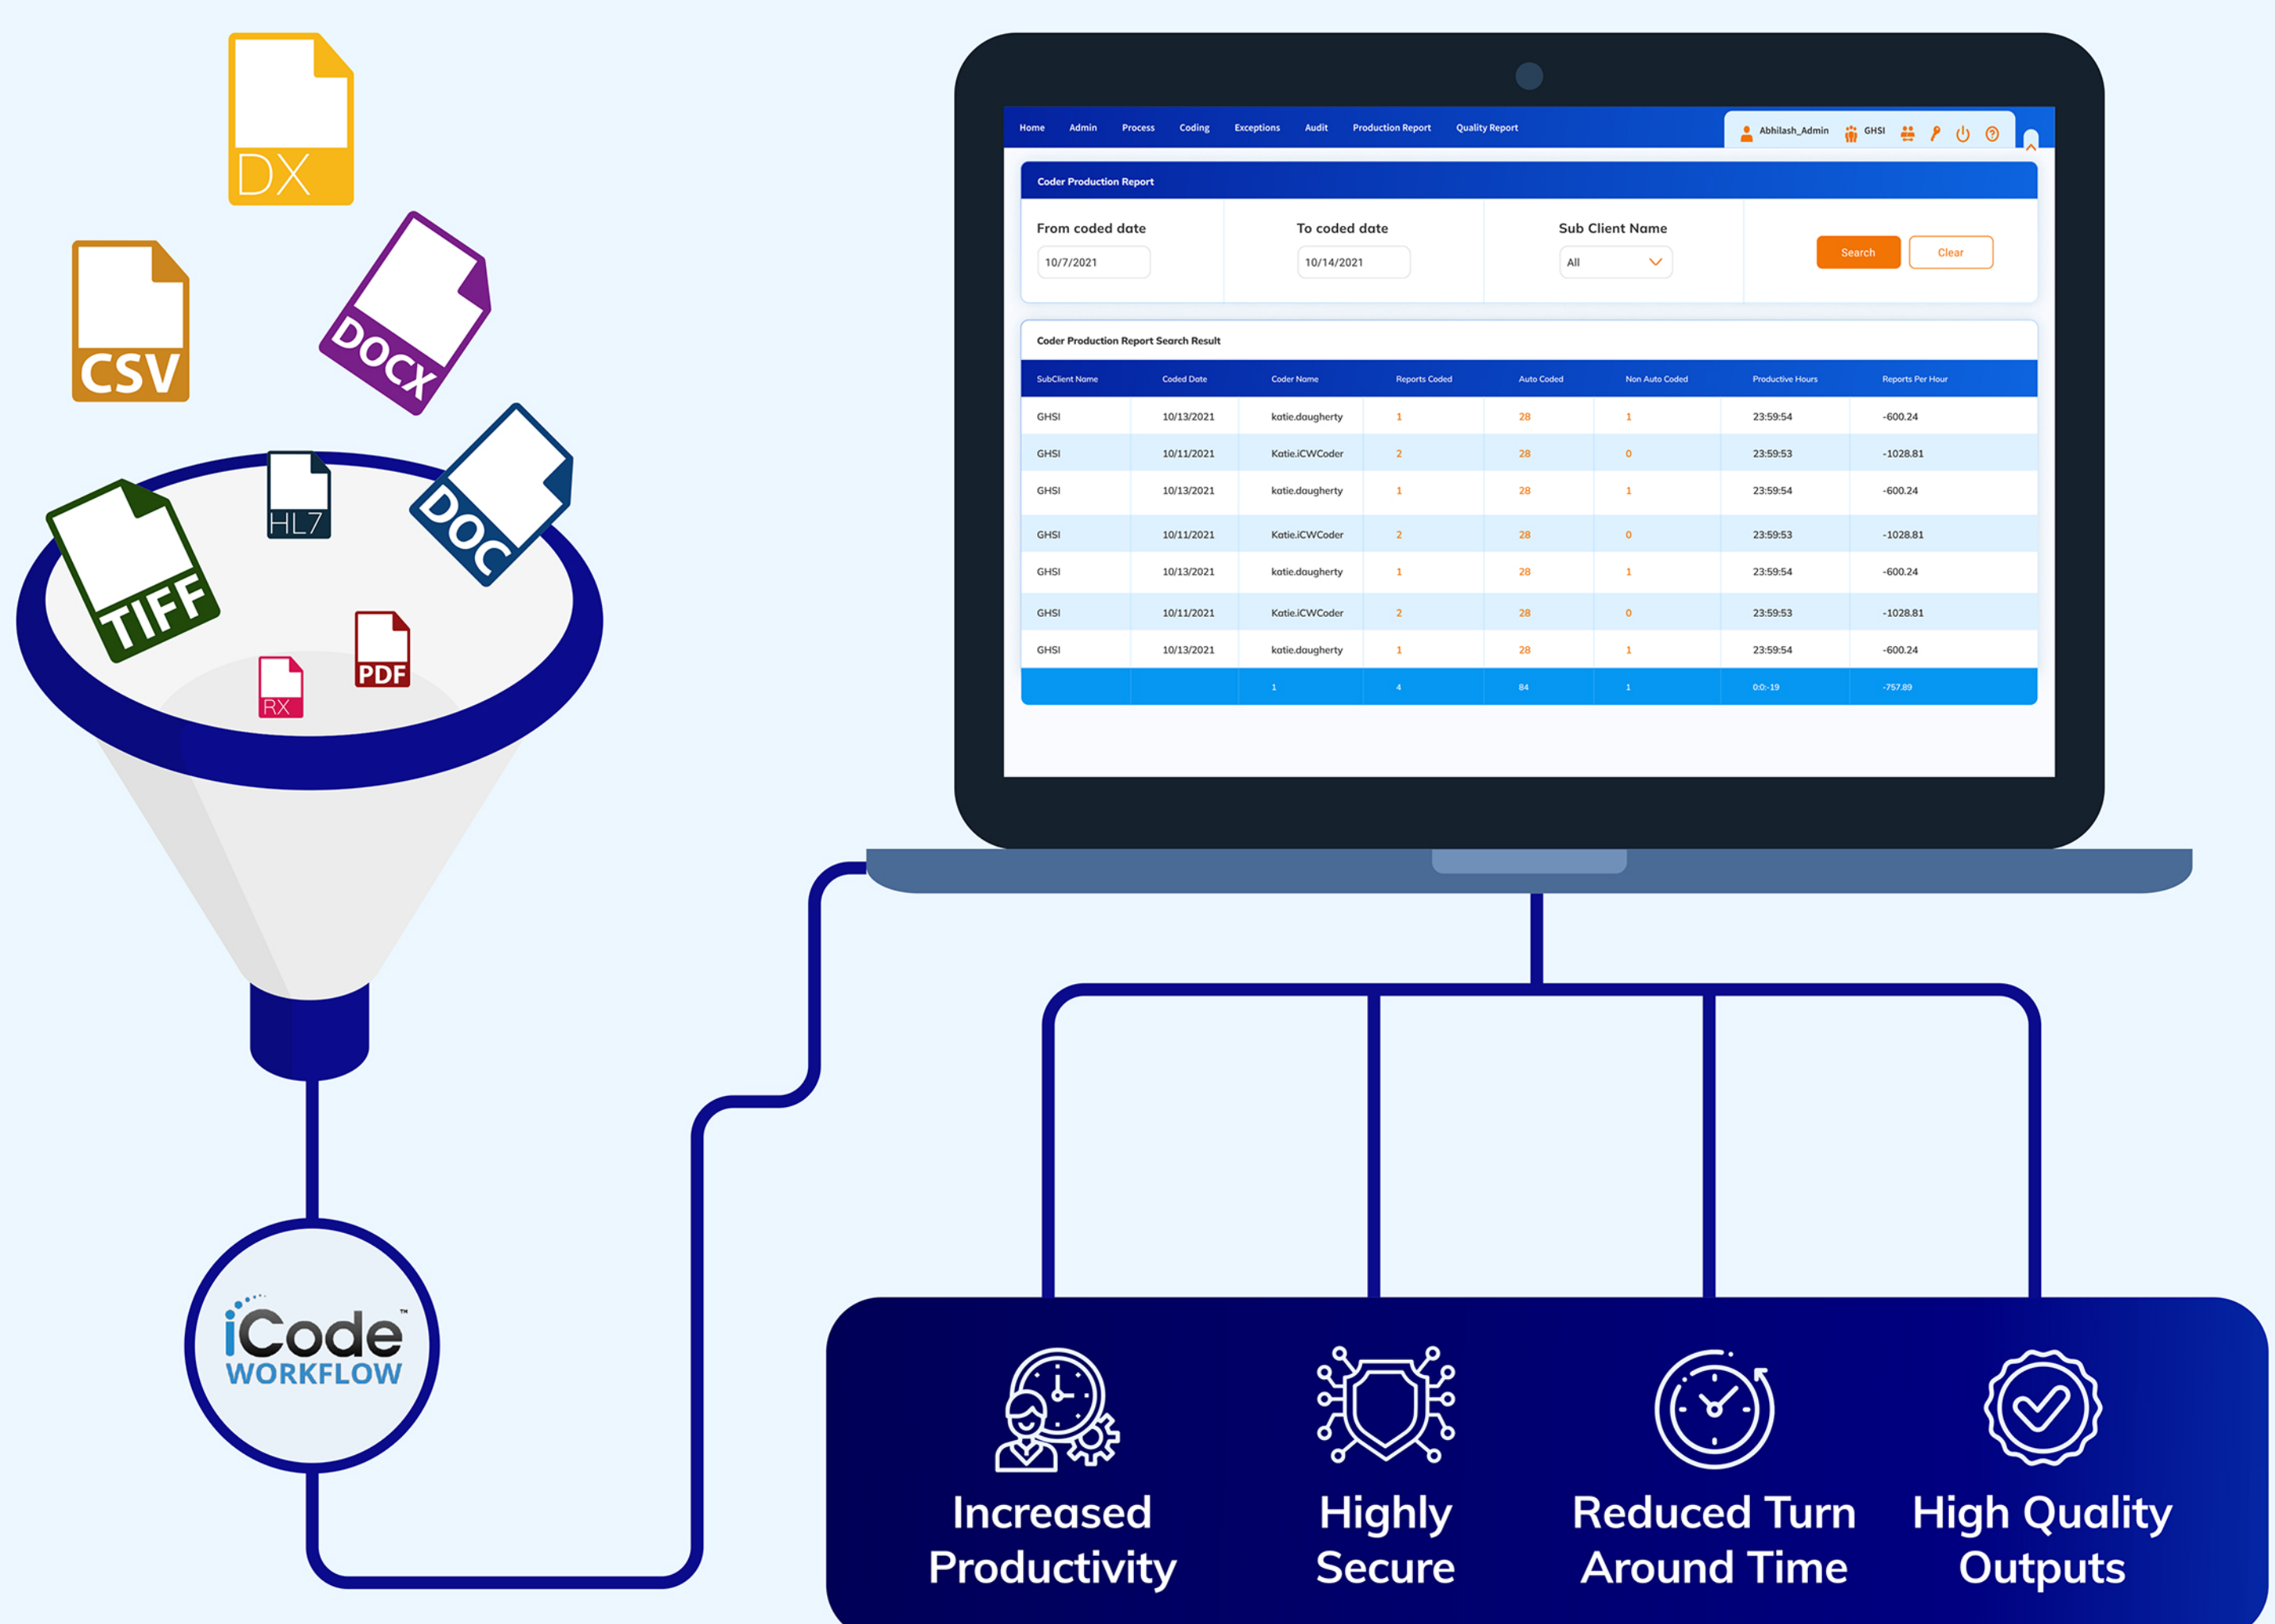

Did you know?

According to the JAMA network, the United States healthcare system could save up to \$175 billion by reducing administrative costs by 50% ¹

GeBBS' iCode Workflow Solutions Can Help You Navigate This Minefield

Advantages of the GeBBS iCode Workflow

Built-in functionalities for custom-mapping incoming data fields

Client-system compatible customized output

4000+ coders with physician, hospital, and payer experience

AI-enabled autonomous coding platform streamlines coding, boosts efficiency, and enhances accuracy

Impact in Numbers

96%+
Proven Coding Accuracy

30-40%
Cost Savings vs Provider-based Coding

4000+
AHIMA and/or AAPC-certified Coders

24 to 48
Hour Turnaround Time
