iCodeOne™
Our Unified AI-Driven Hub for Coding, Auditing, RADV & Risk Adjustment

LLM-driven Precision and Smarter Workflows

GeBBS
HEALTHCARE SOLUTIONS
Forward Thinking

iCodeOne™ by GeBBS unifies iCode Workflow®, iCode Assurance®, and iCode Risk Adjustment® into one seamless LLM-driven system—improving coding, audit, RADV, and RAF accuracy, efficiency, and compliance for health organizations.

Key Features:

Autonomous Coding & Auditing
HCC, CPT, ICD — automated scans, exceptions reviewed

CDI & E/M Support
Integrated CDI workflows and built-in E/M calculator

Charge Capture Validation
Automated checks to reduce missed billable services

Risk Adjustment & RADV
RAF scoring, HCC validation, RADV-ready workflows

HEDIS & Quality Gap Detection
HEDIS/STAR alignment and gap identification

Compliance & Denial Prevention
Real-time scrubbing, alerts, and denial prediction

Benefits:

01 Improve Turnaround Time
- 60%+ charts processed autonomously; only exceptions reviewed
- Continuous AI retraining improves autonomous coding/audit accuracy

02 Increase Operational Efficiency
- Up to 25% lower operational costs via autonomous workflows
- Supports 30% more volume without new staff

03 Secure & Compliant
- Cloud-based, audit-ready architecture with autonomous compliance checks
- Meets HITRUST and industry security standards

04 Improve Financial Outcomes
- Autonomous detection captures eligible revenue
- Reduces denials, accelerates reimbursement cycles

05 Enhance Risk Adjustment & Quality Scores
- Automated HCC validation boosts RAF, HEDIS, STAR scores
- RADV-ready workflows strengthen revenue integrity

Real Results*

40%+ Reduction in Review Time

30%+ Revenue Uplift

20% Reduction in Edits and Denials

60% Fewer Compliance Errors

0.75+ RAF Score Uplift

20% Better Learning Insights

Results may vary

Achieve unified, LLM-driven coding, auditing, RADV, and risk adjustment with iCodeOne™

HITRUST | AICPA SOC | ISO 27001 Certified | PCI DSS Certified | NIST CSF
